EsyCheck Wireless Dongle

autoeye**Xpert**

PRO SERIES

EasyCheck Wi-Fi Hotspot for use with Pro Series DVR's

Part number: AEX-ST-ACC-EC

KEY FEATURES

- USB dongle creates a wi-fi hotspot for Pro Series DVR's
- Facilitates easy maintenance and management of DVR settings
- Wireless app FREE for iOS and Android platforms
- Compatible with phones and tablets
- Built-in SD slot for data backup and file storage

OVERVIEW

The Standby RSG AEX-ST-ACC-EC EasyCheck is a USB dongle that creates a wi-fi hotspot around our Pro Series DVR's to facilitate maintenance and management of the system via iOS or Android devices. The system is particularly useful when adjusting camera viewing angles during installation as it allows a live real-time view on a phone or tablet avoiding the need to constantly walk up and down the vehicle to check on a dash-mounted monitor for example. The system also allows full access to all the DVR settings for resolution, frame rate, alarms, naming conventions, diagnostics etc. The built-in SD slot also allows easy transfer of firmware updates, configuration backup files, and downloads of camera footage. Access to the system settings is protected via password.

Apps are free on the Apple App and Google Play stores:

- iOS - https://apps.apple.com/gb/app/rm-easy-check/id1060983180
- Android - https://play.google.com/store/apps/details?id=com.streamaxtech.mdvr.direct&hl=en_GB&gl=US

EasyCheck AEX-ST-ACC-EC

SPECIFICATION

MODEL		AEX-ST-ACC-EC
Function Overview	Preview, playback, search, setting	
System	Operation System	No
	Control Mode	Wi-Fi
Interface	USB	USB 2.0x1
	SD	SDx1
Network	Wi-Fi	Support (802.11b/g/n) 2.4GHz
	Transmission Rate	20Mb/s
	Available Range	Within 10 metres
Power	Voltage	DC 5V
	Current	500mA@5V
Physical Characteristics	Dimensions (mm)	49.9mm (L) x 90mm (W) x 18mm (H)
Environment	Working Temperature	-10ºC - +50ºC
	Working Humidity	Working Humidity: 20% - 80% Non-condensing
