DESCRIPTION

The Standby RSG AEX-ST-ACC-GMAX is a cable measuring 20cm in length and is used with the X3 Pro Series of DVR's. It allows the 10-pin rear panel connector to convert to a 4-pin for use with standard 'dumb' monitor. It serves as an alternative to using the AEX-ST-TSD-CP4 touch screen monitor and can be extended further by using any of our 4-pin extender cables.
