PRO SERIES
Desktop Disk Reader for X1 and X3 Pro Series DVR's
Part number: AEX-ST-ACC-CR

KEY FEATURES

- Adopts high speed converting core with better reading ability
- Good heat radiation
- Stable and compact unit

DESCRIPTION

The AEX-ST-ACC-CR desktop disk reader is designed to facilitate fast data transfer from our X1 and X3 Series of DVR's when using a wired USB connection to a PC. It converts the disks native SATA connection into a USB3 connection and allows preview and import of data directly into the Ceiba client software.

When using this method of data transfer it is sometimes useful to also consider a spare disk caddy so a DVR can continue to be used in a vehicle whilst data is extracted. See our peripheral page for suitable spare disk caddies.

SPECIFICATION

MODEL		AEX-ST-ACC-CR
Power	Power Supply	USB power supply
		(only support one 2.5" HDD power supply), Adapter power supply
	Power Input	DC19V
Ports	USB Port	USB3.0
	Hard disk box port	SCA2
Others	LED	2 pieces
	Working Temperature	-10º ~ 70ºC
	Dimensions (LxWxH)	84x31x17mm
