

PRO SERIES

7" Colour Touch Screen with LED Backlight

Part number: AEX-ST-TSD-7IN

The Standby RSG AEX-ST-TSD-7IN is a 7" colour monitor which supports both standard and high definition inputs from CVBS and AHD sources up to 1080P resolution. The monitor has two input channels allowing it to be used as a display for our Pro Series DVR's and also as a reversing aid direct from a camera. This has advantages for vehicles which need to manoeuvre rapidly before a DVR has had time to complete its boot-up sequence, thus being able to display a reverse camera image as soon as powered "on". It can also be used with a "Y" splitter cable so a single high definition reversing camera can feed both the monitor and DVR. The monitor can be powered from 9-36 volts DC thus being suited to use on 12 volt and 24 volt vehicles.

- 7" high definition colour monitor for Pro Series DVR's and cameras
- Two video input channels to support DVR & separate reverse camera
- Supports CVBS and 1080P AHD inputs
- Wide supply range from 9-36 volts DC (12 & 24 volt vehicles)

MODEL	AEX-ST-TSD-7IN
Size	7 inch (16:9)
Resolution	1024 x 600
Backlight	LED
Brightness	400cd/m2
Active Display Area	180.08 (W) x 180.08 (H) mm
Viewing Angle	185 (L/R/U/D)
Power Supply	DC9-36V
Power Consumption	5W
Video Input	AV1/AV2 (AHD/CVBS) with maximum 1080p resolution
Audio Input	2-way audio input
Reverse Trigger	Support
Language	Total 8 languages, English is supported
Image Rotation	Support
Operation Temperature	-20°C to +70°C
Dimensions	178 (L) x 118 (W) x 45mm (D)
