

L54

The newly designed L54 was specially developed for installation with confined spaces.

Due to the very slim design, discreet assembly is possible. Nevertheless, the L54 ensures a high light output that is approved to ECE R65 class 2.

Depending on the installation options in the vehicle, the L54 is available as a single module with a solo driver or as a double module with a twin driver.

Product features:

- **High light output in the smallest of spaces**
- **Operating 12 / 24v**
- **Adjustable flash modes**
- **Approval ECE R65 Class:2**
- **Synchronisation up to 10 Modules**
