

VACANCY : WORKSHOP OPERATIVE - AUTO ELECTRICAL**Position:** Workshop Operative - Auto Electrical**Location:** UK Head Office**Reports to:** Operations Manager**Employment Type:** Permanent Full time**Job Summary**

We are seeking a skilled and reliable Auto Electrical Workshop Operative to join our team. The successful candidate will be responsible for assembling, wiring, and testing a range of products in accordance with engineering drawings, technical specifications, and quality standards. This role requires attention to detail, hands-on experience with auto electrical systems, and a commitment to maintaining a safe and efficient workshop environment.

Key Responsibilities

- Assemble and wire emergency lighting and control systems for emergency vehicle installation
- Read and interpret electrical schematics, wiring diagrams, and technical drawings
- Carry out testing, inspection, and quality checks of electrical assemblies
- Diagnose and repair electrical faults where required
- Ensure all work meets company and regulatory safety standards
- Maintain accurate records of completed work and test results
- Keep the workshop organised, safe, and well-maintained
- Collaborate with engineers, supervisors, and other team members to meet production targets
- Follow standard operating procedures (SOPs) and contribute to continuous improvement initiatives

Requirements

- Proven experience as an electrical assembler, panel wirer, or similar role
- Knowledge of electrical systems, components, and wiring techniques
- Ability to read and understand technical drawings and schematics
- Strong attention to detail and quality workmanship
- Good problem-solving skills and a proactive attitude
- Awareness of health and safety regulations within an auto electrical environment
- Ability to work independently or as part of a team
- Commitment to the Company values, being: Customer focus, Teamwork, Trust, Respect and Passion for winning

Desirable Skills (Optional)

- Experience with control panel assembly or industrial automation systems
- Awareness of ISO9001 and ISO14001

Employment Conditions

- Based primarily in the workshop environment
- Standard working hours Monday to Thursday 8am to 4.30pm Friday 8am to 1.30pm with possible overtime during busy periods
- PPE provided

Salary & Benefits

- Competitive salary based on experience
- Holiday entitlement - 20 days plus Bank Holidays
- Company Pension scheme
- Opportunities for training and career development
